

NorthEast Public Health Alliance

Coalition Fact Sheet

Who we are

The NorthEast Public Health Alliance (NEPHA) is a regional public health collaborative comprising the towns of Billerica, Chelmsford, Tewksbury, and Tyngsborough. Through the Massachusetts Public Health Excellence Grant, NEPHA shares resources and supports partnership to improve public health access and service delivery across the region.

What we offer

Public Health Services

NEPHA's collaboration supports environmental health, disease control and prevention, health communication, and more.

Regional Support

Regional Staff work collaboratively across the four communities to provide services, collaborate with community partners, and engage with the community, working closely with each Health Department and Board of Health.

Community Partnership

To promote regional collaboration, NEPHA works with partners across the Northeast Region, as well as partners at the Massachusetts Department of Health.
